Lain Hong Shing Yeh Co., Ltd

In 2004, our founder was established Lain Hong Shing Yeh Co., Ltd in Tainan County, the south of Taiwan. In the initial stage, we are focused on small OEM thermal compress products and other foam-related process products.

As we had invest a lot of money in development and machines and cooperated with many well known enterprises, also in response to the consumer trends changes, in July, 2018, we had move to XinHua District, Tainan City.

To increase the production capacity, we had purchase many processing machines and 3D CNC machines in order to coordinate and satisfy our client's sales, product quality and specification needs.

Placing consistent emphasis on quality, environmental protection and product safety, we had involve in many industry such as sports, fitness, medical, construction, semiconductor even car industry.

Lain Hong had obtain the ISO 9001, ISO 14000, SA 8000 and other professional certifications. Full range of products has also been accredited with EU RoHS, REACH, PAHs Free and FDA test approvals.; specific products have passed the US UL94-V0 fire retardant, halogen-free and other test approvals to ensure client's product meets the regulation.

Management Team

Our Management Team holds the principle of honesty, innovation, and service to achieve the sustainable operation and growth for our company.

Company Prospect

In the future, we are hoping to enhance the Competitiveness, so we can achieve sustainable operation in this field.

Lain Hong is dedicated to products excellence and continuous innovation. We constantly exceed customer's expectations by providing the greatest value and quality worldwide. We will faithfully make the products according to your requirement.

Please sit on a chair and clip the product with your thighs. This will stimulate your lower belly and side thigh muscles.

b. How to exercise your shoulders, arms and back muscles

Please stretch your arms in diverse directions and angles. This will stimulate your arms and back muscles effectively.

D. Purposes

- The product is a fitness device with vibration available.
- Vibration during stretching exercise can double the effect.
- The product can be use as weight for shaping the arm muscle and for stretching, the product is fit for eurhythmics and any stretches. Refer to the vibration function, you can massage to loosen your muscle pain and remove the lactate after the exercise.
- The product as a massager can massage and loosen your thigh, calf, back, belly and shoulder muscles.

E. Characteristics

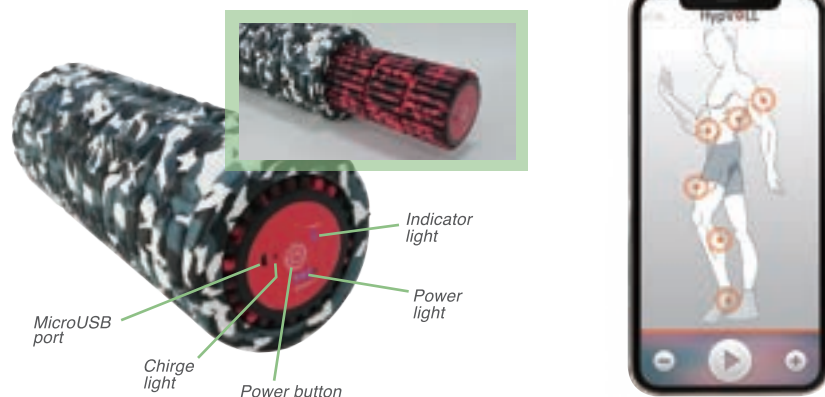

- The product is a good-looking design, handy, light weight and portable for exercise and health keeping.
- The weight with vibration offers you the opportunity to exercise at any place and at any time, on the sofa, chair, wall, floor, even when you sitting in the office to relieve the stress and fatigue.

F. Storage

- The product is not waterproof. Do not soak it in the water.
- Use wet cloth to wipe out the dirt on the surface. Do not wash it with tap water.
- Do not store it in any place with high temperature and high humidity and under direct sunshine. Please keep it out of reach of children.

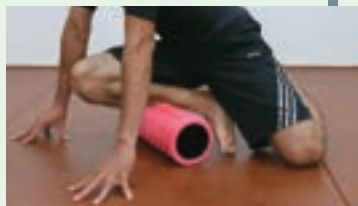

Compatible with your Smartphone and Tablets.

- Hold the Button 5 seconds to turn on the Bluetooth on your HYPVOLL Roller.
- Turn on the Bluetooth on your Cellphone and search for HYPVOLL Roller.
- Enjoy your personal massagist.

38cm Hollow Core Massage Grid Foam Roller

Model	FE00-HCGR01
Material	EVA&PE + ABS Pipe
Measures	38cm in Length × 14cm in Diameter
Hardness	25°~45° ± 3° Shore C
Accessories	Carrying Bag, Massage Ball Cover Cap, Hand Grip (Optional)

33cm Hollow Core Massage Foam Roller - Shape Cone

Model	FE02-HCMR33
Material	EVA&PE + ABS Pipe
Measures	33cm in Length × 14cm in Diameter
Hardness	25°~45° ± 3° Shore C
Accessories	Carrying Bag, PU Massage Ball Cover Cap, Hand Grip (Optional)

15cm Aluminum Core Mini Massage Roller

Model	FE090-ACMR01
Material	EVA&PE + Aluminum Pipe
Measures	15.5cm in Length × 6cm in Diameter
Hardness	25°~45° ± 3° Shore C

Standard Colour

- Suitable for those needs to travel around, easy to carry, hollow core can use for storage things or cloth to save more space in your luggage.
- Several unique designs pattern, different then those flat design rollers, it gives clear feeling while you roll onto it.
- Using the roller to do the massage therapy is much better than taking drugs.
- Achieve in batter rehabilitation, longer Sporting career and lifestyle.

Foot Massage Roller

Model	FE092-MRW21
Material	EVA*&PE + PU
Measures	21cm (L) x 7cm Diameter ± 0.3cm
Wheel	PU or PP+PU
Hardness	20°~60° ±5° shore C are available
Colour	All Colour available

Foot Massage Roller X

Model	FE092-MRW22
Material	EVA*&PE + PU
Measures	21cm (L) x 7cm Diameter ± 0.3cm
Wheel	PU or PP+PU
Hardness	20°~60° ±5° shore C are available
Colour	All Colour available

Hydro Bottle Roller

Model	FE08-HBR001
Material	EVA*&PE + 304 Stainless Steel
Measures	500ML: 17cm (H) x 9cm Diameter ± 0.3cm 750ML: 23cm (H) x 9cm Diameter ± 0.3cm 1000ML: 23cm (H) x 10cm Diameter ± 0.3cm Foam: 12mm (T)
Hardness	20°~60° ±5° shore C are available
Colour	All Colour available

Massage Stick

Model	FE093-MRS33
Material	EVA*&PE、PP、Steel
Measures	33cm (L) x 7cm Diameter ± 0.3cm
Hardness	20°~60° ±5° shore C are available
Colour	All Colour available
Accessories	Adjustable wheel (S) & (L)

Massage Stick X

Model	FE093-MRS33
Material	EVA*&PE、PP、Steel
Measures	47cm (L) x 7cm Diameter ± 0.3cm
Hardness	20°~60° ±5° shore C are available
Colour	All Colour available
Accessories	Adjustable wheel (S) & (L)

Du-Ball (Peanut Ball)

Model	FE70-DMB01
Material	EVA*&PE
Measures	16cm (L) x 78mm Diameter ± 0.3cm
Hardness	20°~60° ±5° shore C are available
Colour	All Colour available

Tri-Ball (Peanut Ball)

Model	FE70-TMB01
Material	EVA*&PE
Measures	24cm (L) x 78mm Diameter ± 0.3cm
Hardness	20°~60° ±5° shore C are available
Colour	All Colour available

Mini Point Roller

Model	#FE091-MPR22
Material	EVA* & PE
Measures (L)	20cm (L) x 7cm Diameter \pm 0.3cm
Hardness	20°~60° \pm 5° shore C are available
Colour	All Colour available

Oral Balance Pad

Model	FE31-OBP001
Material	TPE
Measures (L)	30cm (L) x 18cm (W) x 60mm (T) \pm 0.5cm
Hardness	10° \pm 5° shore C are available
Colour	Black \ Blue \ Grey

Lumber Support Pad

Model	FE08-LSPS01
Material	EVA & PE
Measures (L)	34cm (L) x 30cm (W) x 85mm (T) \pm 0.3cm
Hardness	20°~55° \pm 5° shore C are available
Colour	All Colour available

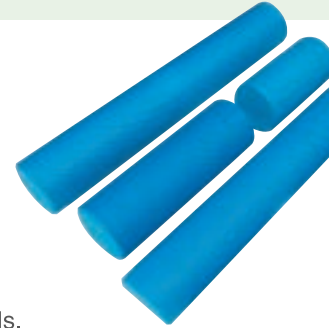

Yoga Wheel

Model	FE20-YW001
Material	EVA* & PE \ ABS Wheel
Measures	(S): 13cm (W) x 16cm Diameter \pm 0.3cm (M): 26cm (W) x 16cm Diameter \pm 0.3cm (L): 35cm (W) x 16cm Diameter \pm 0.3cm Foam: 10mm (T) Wheel: 4mm (H)
Hardness	20°~60° \pm 5° shore C are available
Colour	All Colour available

Yoga Foam Roller Series

Model	FE10-EFR001
Material	EVA & PE
Measures	30~90cm in Length x 10~15cm in Diameter
Hardness	15°~45° \pm 3° Shore C are available
Surface	Embossed or Non-Embossed Pattern
Colour	All Colour available

- 12-36 inch in length to fit all levels of user's abilities and needs.
- Can be used for a variety of physical therapy or sports training applications.
- It is a great way to release stress and massage therapy.
- Excellent tools for rehabilitation, improving balance and body awareness and coordination.

Non-Embossed Texture Yoga Foam Roller

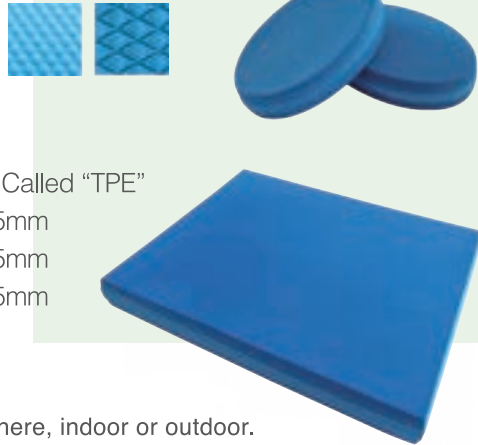

Model	FE15-SSFR01
Material	EVA & PE
Measures	30~90cm in Length X 15cm in Diameter
Hardness	15°~35° \pm 3° Shore C
Colour	All Colour available

Model	FE16-SSFR01
Material	EVA & PE
Measures	30~90cm in Length x 15cm in Diameter
Hardness	20°~35° \pm 3° Shore C
Colour	All Colour available

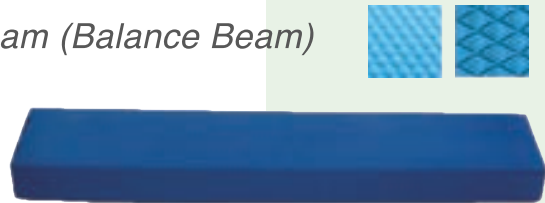

Balance Pad (Athletic Mat)

Model	# FE30-BP0001
Material	EVA + Elastomer Also Called "TPE"
Measures (L)	40cm×50cm×58mm ±5mm
Measures (M)	40cm×48cm×58mm ±5mm
Measures (S)	35cm×40cm×63mm ±5mm
Hardness	5° ±3° Shore C

- Classic Balance Pad can be used at anywhere, indoor or outdoor.
- Made by durable foam with coated surface to prevent the stickiness.
- Durable and latex free.
- Great to use for balance training, coordination, reaction training and motor-skill rehabilitation.

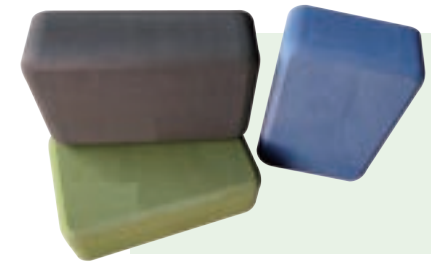

Trapezoid Athletic Beam (Balance Beam)

Model	# FE01-000002
Material	EVA + Elastomer Also Called "TPE"
Measures	1020mm(Length)×200mm(Wide-Side)× 130mm(Narrow-Side)×60mm(Height) ±5mm
Hardness	5° ±3° Shore C
Colour	All Colours available

- Athletic Beam gives two different choices for exercise.
- Beginner can use the wide side down for greater stability or the advanced users can place the narrow side down for greater challenge.
- Can Be Custom Design.
- Unstable characteristic provide the lower and upper body great coordination and stabilization.

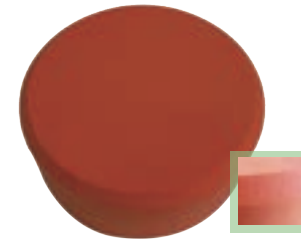

Yoga Brick Series

Model	FE42-SYB401
Material	EVA & PE
Small Measures	3 inch × 6 inch × 9 inch ±2mm
Large Measures	4 inch × 6 inch × 9 inch ±2mm
Hardness	15°~70° ± 3° Shore C
Colour	All Colour available
Edges	Beveled Edges or Round Edges
Weight	350g

- The Yoga Brick is a perfect tool for additional support during transitions and poses.
- It can be used in all yoga levels.
- Helps increase flexibility level, deepen stretches, and achieve optimal body alignment.

Yoga Brick Series

Model	FE43-RYB401
Material	EVA & PE +30%~50%Rice Husk
Measures	21,5cm Diameter × 10cm ±2mm
Hardness	25°~45° ± 3° Shore C
Colour	All Colour available
Edges	Beveled Edges or Round Edges
Weight	400g

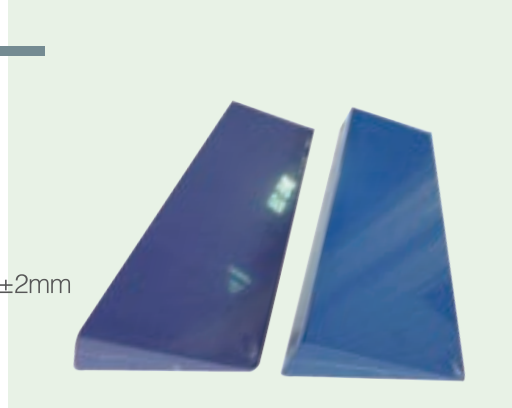

Model	FE44-SYB301
Material	100% Cork
Measures	3 inch X 6 inch X 9 inch ±2mm
Hardness	Beveled Edges
Weight	400g

Model	FE46-HRYB01
Material	EVA & PE
Measures	32,5cm × 11,5cm × 85mm ±2mm
Hardness	20°~50° ± 3° Shore C
Colour	All Colour available

Delta Brick

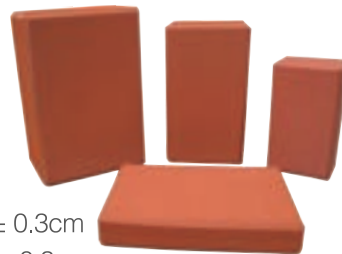

Model	FE45-TYB003
Material	EVA & PE
Measures	50cm × 15cm × 47/3mm ±2mm
Hardness	25°~50° ± 3° Shore C
Colour	All Colour available

- Use it under your heels in squatting or under the hips in forward bends.
- Yogis with tight or problem wrists can use the wedge to alleviate overstretching or pressure on the joints in poses, such as downward-facing dog or upward bow.

Special Yoga Brick Series

Model	#FE43-SYB501
Material	EVA* & PE
Measures	(S): 30cm (L) × 20cm (W) × 50mm (T) ± 0.3cm (M): 23cm (L) × 13cm (W) × 80mm (T) ± 0.3cm (L): 30cm (L) × 17cm (W) × 120mm (T) ± 0.3cm (XL): 34cm (L) × 23cm (W) × 160mm (T) ± 0.3cm
Hardness	20°~60° ±5° shore C are available
Colour	All Colour available

EVA Massage Ball

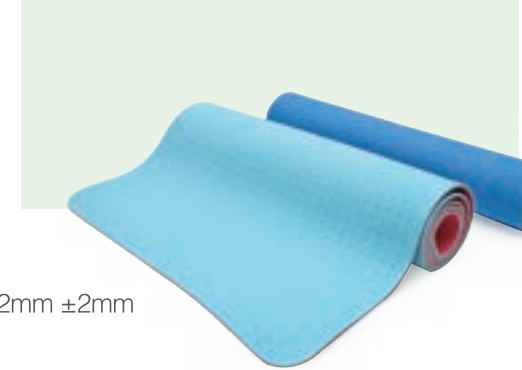

Model	FE90-MB0001
Material	EVA & PE
Measures	Diameter 5cm ~ 15cm ±2mm
Hardness	30°~50° ± 3° Shore C
Colour	All Colour available

TPE Yoga Mat

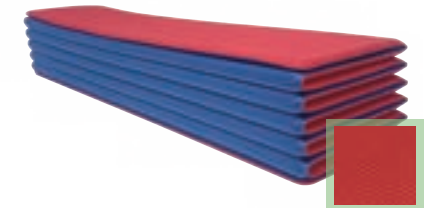

Model	FE50-YM1001
Material	TPE
Measures	60cm × 172~183cm × 3~12mm ±2mm
Hardness	15°~20° ± 3° Shore C
Colour	All Colour available

- Avoiding the product under the sunlight for long time. Storage the mat in room temperature.
- Suggest using the hand towel to clean the mat surface after using it.
- Multi-thickness can be customize, depend on personal needs, provide great usage, protect your body, or place on the floor to prevent the baby fall on the ground.
- TPE foam material provides great anti-slip ability and shock absorbing ability.

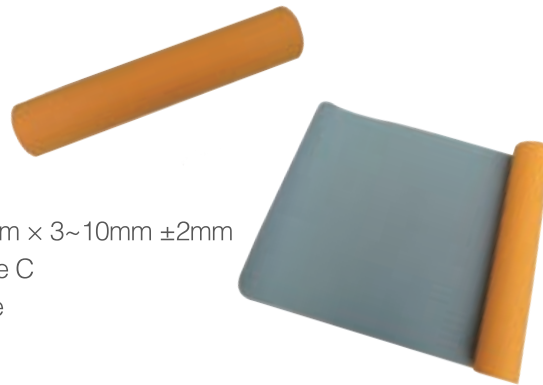

Anti-Slip Folding Yoga Mat

Model	FE50-FYM081
Material	TPE、TC Mesh、Damp Process PU
Measures	180cm (L) × 60mm (W) × 8mm (T) ± 0.3cm
Hardness	20°~25° ±5° shore C are available
Colour	All Colour available

POE Yoga Mat

Model	FE51-YM0601
Material	POE
Measures	60cm × 172~183cm × 3~10mm ±2mm

Hardness	20°~50° ± 3° Shore C are available
Colour	All Colour available

Non toxic, soft to hard touch, durable and easy to clean

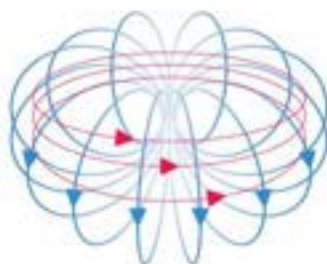

- Furniture friendly self-adhesive tape.
- Dense, impact absorbent.
- Smooth surface, various color and types can be customized.
- Prevent bumps and bruise by adhering these cushions to areas in our house where needs protection. Especially design to ensure your child's safety. These edge cushions are simple to install, durable and reliable.

Magnetic Field Therapy

Acidic physique is a common problem of modern people. Increasing negative magnetic energy is good for health. When too much stress, too many electrical appliances and other factors, it may cause fatigue due to excessive positive magnetic energy.

Magnetic Field Therapy, also known as "Magnet Therapy" and "Magnetic Acupuncture Therapy", is to allow the magnetic field to act on certain parts or acupoints of the human body. Because of the permanent magnet (Neodymium Magnet), the magnetic field lines can penetrate deep into various parts of the human body. It is one of the ways to treat disease.

Improve blood circulation

Relieve swelling, heat and pain during acute attack of gout

Repair damaged cells of gout

Improve sleep quality

Help relax

Speed up metabolism

Relieve systemic pain

Gel Magnetic Bra Pad

Material	Velvet Fabric + PU Foam + Gel (SEBS) + 4000 Gauss Magnet*2pcs
Dimension	11.5cm*5.5cm*20mm
Weight	50g ±5g
Colour	Blue + Black (All colour available)

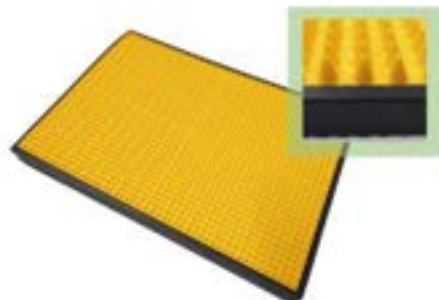

- Through the cycle of magnetic field can simulate gentle massage to achieve smooth circulation, relieve fatigue and regulate the physique, etc.
- Even if you don't use your hands, the magnetic cycle will continue to work itself. If you want better effects, you can press or tap the position of the magnet with both hands.
- Magnetic therapy can improve chest microcirculation, speed up blood circulation, dredge the Mammary gland, prevent and relieve mastitis, Fibroadenoma, lobular hyperplasia and breast cancer to a certain extent. At the same time, magnetic therapy can also improve the breasts.
- Magnetic therapy also play a very good role in regulating breast dysplasia, flatness and Breast ptosis.

High Blood Circulation Magnetic Energy Cushion (Anti-mildew and Antibacterial Agent)

Material	EVA&PE + Magnet
Dimension	96cm(L) x 45cm(W) x 18mm(T) + 4000 Gauss Magnet*18pcs
Foam Hardness	60° ±3° shore C (Hard) 50° ±3° shore C (Medium) 40° ±3° shore C (Soft)
Colour	Colour Customized Available Colour: 500 pcs
MOQ	Single Colour: 1000 pcs
Accessories	none
Product Origin	Made in Taiwan

- Magnetic field therapy can help regulate nerves, relieve mental and physical imbalances, prolong sleep time and improve insomnia.
- Permanent magnets can form a magnetic field, generate magnetism and penetrate the human body, improve microcirculation, and accelerate metabolism.

Lumbar Support Magnetic Energy Cushion

Material	EVA&PE + Magnet

Colour	Colour Customized
MOQ	Available Colour: 500 pcs Single Colour: 2000 pcs
Accessories	none
Product Origin	Made in Taiwan

- Because Magnetic Therapy can reduce the excitability of peripheral nerves and increase the breadth of pain, it has a good anti-inflammatory and analgesic effect.

Adjustable Magnetic Energy Massage Stick

Material	Steel + EVA&PE+ PP + Magnet
Dimension	Stick: 33cm (L) x 7cm (Dia) ± 0.3cm Wheel: 13cm(Dia.)*38mm(T)*2pcs + 4000 Gauss Magnet*8pcs
Weight	150g ± 20g
Foam Hardness	25° ±5° shore C (Optional)
Colour	All Colour available
MOQ	Available Colour: 500 pcs Single Colour: 10000 pcs Camouflage 20000 pcs
Accessories	Wheel
Product Origin	Made in Taiwan

- Improve microcirculation, relieve pain in various parts, drain metabolites from the body, and relieve fatigue.
- Far infrared rays can promote the circulation of blood, activate cells and water molecules in the body, and dredge blood vessels to improve the circulation of blood.

Gel (SEBS) Magnetic Energy Pad

Material	Gel (SEBS) + Magnet + OK Fabric
Dimension	OK Fabric (One Side) + 2mm NEOPRENE + T Nylon-Jersey (One Side) + 4000 Gauss Magnet*3pcs + Gel (SEBS)
Colour	Black (All colour available)

Thermal Treatment Massage Stick

Model	FE094-TTMS001
Material	EVA*&PE - PP - Steel
Measures	33cm (L) x 7cm Diameter ± 0.3cm
Hardness	20°-25° ±5° shore C are available
Colour	All Colour available

Tracheotomy Philadelphia Cervical Collar

Material	PE (Zotefoam LD45)
Colour	PINK
Dimension	

Unit: inch

Size	Circumference of Neck	Height
S	10-13	3 1/4 · 4 1/4 · 5 1/4
M	13-16	3 1/4 · 4 1/4 · 5 1/4
L	16-19	3 1/4 · 4 1/4 · 5 1/4
XL	19 above	3 1/4 · 4 1/4 · 5 1/4

Specification

- Restricts cervical spine flexion, extension and rotation to promote patient recovery.
- Two-piece design enhances patient comfort.
- Conformance to the shoulder and mandible contour allows superior stability and comfort.
- Ventilation openings reduce heat and moisture.
- Maneuverable chin support for airway management.
- Water-resistant for bathing and aqua-therapy.
- Easily customized for individual requirements.
- X-ray, CT and MRI lucent.
- Clean with mild soap and water.

Proper sizing of the Collar is important for patient immobilization and comfort. Always maintain the patient's head in neutral alignment. For directions follow a qualified healthcare provider's instructions.

Breathable Inpatient Care Bed Mattress

- 8cm EVA&PE Part is washable. Air Dry + avoiding the product under the sunlight for long time.
- 3cm PU foam can not be wash and avoiding the material under the sunlight.
- 3cm P.O.E material can use to replace the PU foam for Incontinence, Bleeder or Special needs patient use.
- P.O.E material is washable. Air Dry, avoiding the product under the sunlight for long time.
- Foam Contains Eco-Friendly Anti-Bacterial and Mould resistance doses from Japan.
- Unique and integrate design similar to "pocket coil spring" design, but better air flow while the structures stays support the pressure and distribute it.
- For those who needs to lie on the bed for long time, it can reduce the body temperature, pressure centralized and prevent the Pressure ulcer; sores problems.
- Through the clinical trial test, the data shows it increase about 18.78% of the lumbosacral blood flow.

Material	EVA & PE + PU Memory Foam + P.O.E
EVA Foam Measures	80~150cm x 197cm x 8cm
PU Foam Measures	80~150cm x 197cm x 3cm
EVA&PE Density	40 kg±2.5kg
PU Density	38kg ±2kg
Hardness	20°~30° ± 3° Shore C
Colour	All Colour available

Experimental results

	1 min	30 min	Relative Difference	P value
New mattress	31.51 (5.22)	31.17 (4.49)	-0.33 (1.58)	0.25
Standard mattress	21.73 (2.44)	24.34 (2.71)	2.61 (3.11)	0.0001*

pair t test : * p<0.05, Unit: mmHg

Table 2. Relative pressure change of buttock measurement

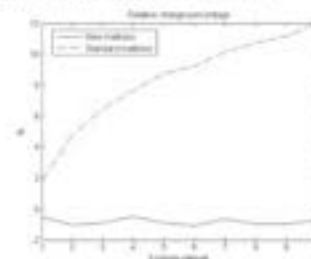

Figure 7. Relative pressure change percentage

Interface pressure measurement

Table 2 shows the relative interface pressure change on the buttock over the entire measurement period. Though the new passive mattress had a higher interface pressure, the relative interface pressure change showed a minor decrease. We can see that relative interface pressure difference increased significantly over time (Table 2). The relative change percentage was -0.7%. In comparison with the standard mattress, the relative change percentage was 12% (Fig.7). 1min

Subcutaneous blood flow measurement

Table 3 shows the relative subcutaneous blood flow change under the sacrum over the entire measurement period. With the new passive mattress, blood flow perfusion increased over time. However, the relative blood flow change in both mattresses was not significant. The relative change percentage in the new mattress (18.78%) was higher than that in the standard mattress (2.32%) (Fig.6).

	1 min	30 min	Relative Difference	P value
New mattress	26.22 (8.92)	29.78 (11.38)	3.58 (12.12)	0.11
Standard mattress	29.27 (5.69)	28.32 (16.67)	-0.95 (15.69)	0.74

pair t test : * p<0.05, Unit: AL

Table 3. Relative blood flow change of sacral measurement

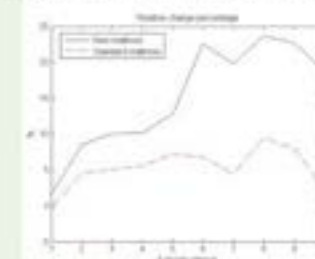

Figure 8. Relative blood flow change percentage

- Lian Hong could provide many different softness levels of foam to meet custom needs and can ensure everyone to have nice and comfortable sleeps and sweet dreams of the user.

Powered Multipurpose Heating Support

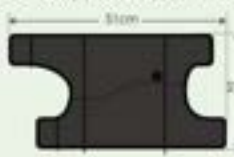

Material

OK Fabric (One Side) + 2mm NEOPRENE + T Nylon-Jersey (One Side)

OK Fabric (One Side) + 2mm SPONPRENE + T Nylon-Jersey (One Side)

Dimension

Main : 51cm (L) x 27cm (W) x 1 Piece <Unsize>

Strap : 60cm (L) x 5cm (W) x 2 Strap <Unsize >

Cable Pocket : 6.5 cm (L) x 6.5 cm (W) x 1 Piece < Unsize >

Control

DC 5V Output, 3 heating level control,
30 minute timing auto shutdown

Temperature

LOW 35°C · MEDIUM 40°C · HIGH 45°C

Power Consumption

LOW 35% Output
MEDIUM 65% Output
HIGH 100% Output

Working Voltage

Suitable for 3.7V · 5 V · 7.4V · 9V · 12V / 1A~3A ·

Power

Computer USB port · Car's USB port · PowerBank · Cellphone etc...

Weight

230g ± 10g

Colour

Black

- Using advance Metal heating film technology to make the flexible electrical circuit heating plate, within ergonomic design support, it can comfortably attach to your body.
- The Multipurpose Heating Support can be powered by any 5V output socket, which is very safe and portable to use. You can use it almost everywhere and anytime.
- 5V USB connection connect directly to the Laptop while you're working or in the car while you're driving.
- The Multipurpose Heating Support can equally distribute the heat and penetrate through the hypodermis, effectively improve blood circulation on the position where you apply to and relieve the pain or pressure.

Powered Multipurpose Heating Support

Episodes of acute pain are very common, but experts say that medical investigations only make thing worse. the traditional way to cure is often to take painkillers, exercise gently and wait for the pain to pass.

Use Heating support, you can soothes tired or sore muscles · prevent or cure your limbs and body pain effectively and easily.
